

# DSP Resource List

## **Commodore Contacts:**

Commodore Technology  
1200 Wilson Drive,  
West Chester, PA 19380  
(215)431-9100      FAX: (215)431-9156

|                 |               |       |
|-----------------|---------------|-------|
| Administration: | Jeff Porter   | x9343 |
| Hardware:       | Dave Haynie   | x9816 |
| Software:       | Randell Jesup | x9305 |

## **AT&T Contacts:**

AT&T Microelectronics  
555 Union Blvd.  
Allentown, PA 18103

|                          |            |               |
|--------------------------|------------|---------------|
| Multimedia Applications: | Kreg Ulery | (215)439-6559 |
|--------------------------|------------|---------------|

## **Hi-Fi Audio Codec:**

|                       |                                       |
|-----------------------|---------------------------------------|
| Analog Devices        | AD1849 16-Bit SoundPort™ Stereo Codec |
| Crystal Semiconductor | CS4215 Stereo Audio Codec             |
|                       | CS4216 Stereo Audio Codec             |
| ITT Semiconductors    | ASCO 2300 Audio Stereo Codec          |
|                       | MCU 2600 Clock Generator IC           |

## **Modem Codec:**

|                       |   |
|-----------------------|---|
| Analog Devices        | AD28msp01 Echo-Cancelling Modem Analog<br>Front End                   |
| AT&T Microelectronics | T7525 High-Precision PCM Codec with Filters<br>for Modem Applications |
